PROFILE INFO

UX/UI designer with a background in hospitality, graphic design, marketing and communications. I am passionate about design and my background in graphic design has helped me create UI designs that are aesthetically pleasing and functional. I am currently finishing my course in UI Design while interning at a startup as a product design intern. My goal is to find a job opportunity hopefully in a tech company where I can further my knowledge in UX/UI Design and Front-End Development and be part of a team that pushes the boundaries of design and aspires to transform ideas into a visually pleasing reality.
